## TYPHOON INTERSECTS 1,24 G/T AU ON 3,0 METERS AT FAYOLLE

---

Laval, Canada May 07 2008 – Typhoon Exploration Inc. (« **Typhoon** ») announces a second series of results of 19 drilling completed during winter 2008 on the Fayolle property owned 100% by Typhoon. **The new results relate to the FA-08-03 to 07 holes.**

**The diamond drilling completed in the west and northwest area of the property, were intended to validate the lateral extensions and vertical depth of the gold mineralization for the Fayolle showing at a distance exceeding 150 meters of the deposit core.**

**The FA-08-03 drilling has intersected an average crosscut of 1,24 g/t Au over 3,0 meters, this grade was obtained under the 125 meter vertical level.** The sampling shows the underlying continuity of the mineralization of this Fayolle area of interest. The best intervals of the FA-08-03 hole are:

#DDH	FROM (m)	TO (m)	LENGHT (m)	AU (ppb)	AU (g/t)	AVERAGE
FA-08-03	207	208	1.0	253		
FA-08-03	209	210	1.0	267		
FA-08-03	211	212	1.0	214		
<b>FA-08-03</b>	<b>212</b>	<b>213</b>	<b>1.0</b>	<b>3402</b>	<b>3.53</b>	<b>1,24 g/t Au / 3,0 m</b>
FA-08-03	213	214	1.0	111		

The drill holes FA-08-04 to 07 were performed with the same goal in mind. In spite of lower grade **these results show clearly from the geologic and structural point of vue that the mineralized envelopes continues in this sector.** The best intervals for FA-08-04 to FA-08-07 drill holes are:

#DDH	FROM (m)	TO (m)	LENGHT (m)	AU (ppb)
<b>FA-08-04</b>	<b>241.00</b>	<b>242.00</b>	<b>1.00</b>	<b>1037</b>
<b>FA-08-05</b>	<b>47.00</b>	<b>48.00</b>	<b>1.00</b>	<b>1019</b>
FA-08-05	48.00	49.00	1.00	941
FA-08-05	52.00	53.00	1.00	509
<b>FA-08-06</b>	<b>60.00</b>	<b>61.00</b>	<b>1.00</b>	<b>1109</b>
FA-08-06	61.00	62.00	1.00	691
FA-08-07	59.00	60.00	1.00	757

Therefore, the work already done on the Fayolle property indicates the gold mineralization appears to dip toward those sectors. **Several drilling analysis are presently in progress and will be announced as soon as available.**

**Mr. Robert Gagnon, P. Geo.**, Technical Advisor, a Qualified Person as defined by National Instrument 43-101, supervised the preparation of the information in this news release.

**The common shares of Typhoon Exploration are listed on the Venture Stock Exchange under the symbol «TOO».**
