## News Release

### TYPHOON EXPLORATION INC.

**March 15<sup>th</sup>, 2013 (Laval, Quebec) Typhoon Exploration Inc. - (TYP: TSX-V)** announces that it has no explanation as to the cause of the sudden rise in the share price of the Company.

We are currently finalizing a Preliminary Economic Assessment Study ("PEA") on the Fayolle Deposit and it will be announced through a press release as soon as we have authorization.

It is worth repeating that the past year has been of particular significance with regards to exploration activities for Typhoon Exploration Inc. In fact, following the signing of the \$27 million dollar agreement with Aurizon Mines Ltd. on the Fayolle Project (see May 18, 2010 press release), exploration works of an unprecedented magnitude were conducted and financed by Aurizon Mines Ltd.

In addition, in Septembre 2012 Typhoon published an Updated Mineral Resource Estimate for the Fayolle Deposit and results of metallurgical testwork on the Fayolle Property ("NI 43-101"). All of the updated mineral resources are now in the indicated mineral resource category, the total inferred resources transferred into this category (see Sept. 6, 2012 press release).

Typhoon maintains a strong financial position and carries no debt.
